

## KBD Fund – China : phase 2

Dear Friends,

Following the release of the new Chinese law about international NGO's and the constraints it means, the KBD project has unfortunately to close down in Tibet Autonomous Regions, after 25 years of work. The team is of course very sad, but has decided to not give up and to continue to help Tibetan population despite the situation. Further perspectives have then showed off and give us hope for the future...

### Sustainability

KBD Fund has always designed its programs with a special attention on sustainability. Despite the bitterness to leave Tibet, we can be proud of what we have accomplished there. The 103 villages included in the project were almost 100% covered by the activities undertaken. This gives us hope for the future and the sustainability of our impact, despite the closing down of the project.

*A final and global evaluation will be soon realized and shared on our website*

### Continuity

An exploratory mission enabled KBD Fund to identify the numerous needs of the population living in the East part of the Tibetan Plateau. A lot suffers from bone diseases for which KBD Fund could use its expertise in order to prevent them. A pilot project will be soon launched, in Qinghai and Sichuan provinces, with a special focus on nutrition and food diversification.

*More details will be published soon on our website.*

### Support

To continue its action, KBD Fund still needs, of course, its supporters! This is the reason why a group of 25 brave people chose to run the [20km of](#)

[Brussels](#) (Sunday 28<sup>th</sup> of May) to support “the ones that cannot”!

Encourage them and help them to rise to this challenge. Give them a hand [here!](#)

Faire un don (depuis la Belgique)
